University Name

Abstract

Write your abstract here. Briefly describe the problem, methodology, major results, and conclusion.

Keywords: NISAR, Sentinel-2, snow detection, SAR, remote sensing

1. Introduction

Write your introduction here.

For example, previous studies have demonstrated the usefulness of SAR for snow-related remote sensing.

1.1. Research Objectives

Describe your research objectives here.

2. Related Work

Discuss previous research here.

3. Data and Study Area

3.1. NISAR Data

Describe your NISAR dataset here.

3.2. Sentinel-2 Data

Describe your Sentinel-2 dataset here.

4. Methodology

4.1. Preprocessing

Describe preprocessing here.

4.2. Snow Label Generation

Describe how your Sentinel-2 snow labels were generated.

4.3. Model Architecture

Describe your model here.

5. Results

5.1. Quantitative Results

Present numerical results here.

5.2. Qualitative Results

Present visual results here.

6. Discussion

Discuss the results here.

7. Conclusion

Summarize the major findings here.

8. References

Bibliography
